

a lifetime protection

Manufacturing Process

1 Colour Shield Clear Gel Coat

The first step to guaranteeing your pool's durability is the application of the Pools Colour Shield Gel Coat. Colour Shield is a Marine Grade clear pure Gel Coat that offers unsurpassed UV protection. It ensures that the colour of your new Pool is protected against colour fade. Colour Shield for a Lifetime Protection.

2 Marine Grade Colour Gel Coat

This is where your chosen finish colour is contained. Our Quality endorsed processes ensure all materials are accurately measured to ensure a constant weight and thickness is applied throughout your pool.

3 Vinyl Ester and Fibreglass

A protective layer or barrier that prevents the growth of bacteria giving added protection to your family.

4 White Resin and Fibreglass

A measured layer of resin and fibreglass that is designed to enhance the structural integrity and strength of the pool.

5 Form Core Supports

Provides a stiffness and structural strength to the pool ensuring a lifetime of structural integrity.

6 White High Resin and Fibreglass

The final layer that creates a hardened exterior barrier and locks all of the previous layers and laminations together. The layers work together in ensuring the strength, colour and manufacturing integrity of the pool to provide you with a Lifetime of Protection.

COLOUR SHIELD

Damaging rays from the sun can cause colour fading to your new pool. Colour Shield protection helps guard your pool colour from the sun's harmful UV rays. Colour Shield is an essential part of the Our Pools' manufacturing process and will ensure your pool looks spectacular beyond its 30-year warranty. To ensure your pool looks spectacular all year round, choose Summertime Pools' "Colour Shield, a lifetime protection"

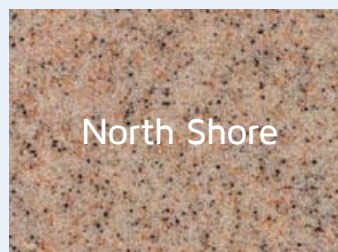

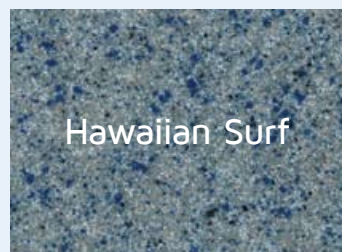

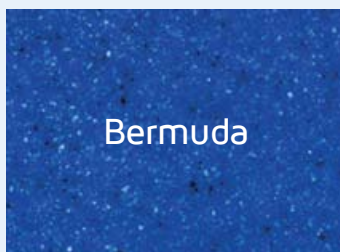

a lifetime protection™

colour and finish

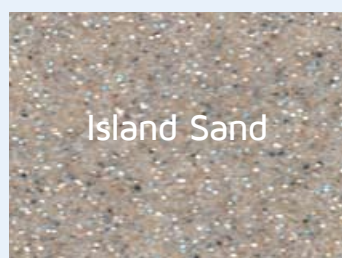

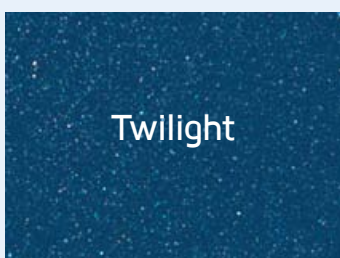

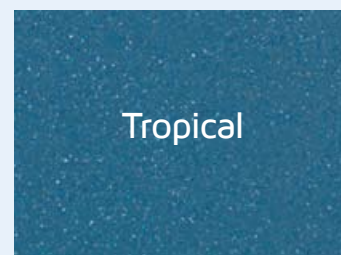

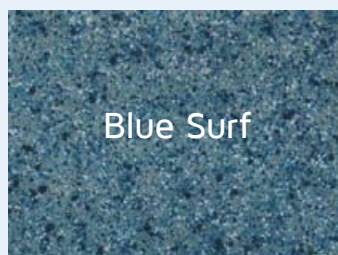

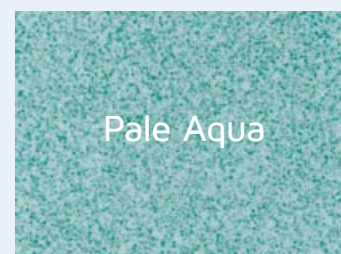

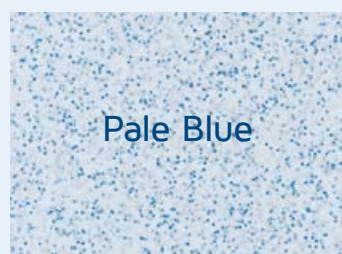

At Dreamtime Pools we have an extensive range of colours and finishes. With so many to choose from, selecting the perfect pool colour for your backyard can be a tricky process. From the calming traditional Bermuda Blue or soft Ivory Sand, we understand that the colour and texture that you choose are vital elements to the look and feel of your new pool. Let our pool colour experts help you make the right choice and find that perfect finish.

CULTURE FINISH

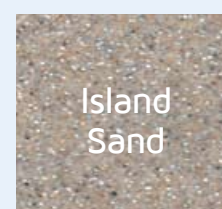

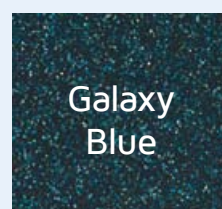

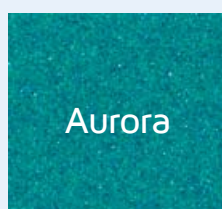

Consider our popular choice colours - Aurora, Bermuda, Bermuda Blue Shimmer and Island Sand.

SHIMMER FINISH

SHIMMER MAX
